

Limoges, December 13th, 2022

LEUKOS is pleased to announce the acquisition of the assets of NOVAE, effective on December 13th, 2022.

NOVAE was Founded in 2013 to develop and market ultra short pulsed laser emitting in the Mid-Infrared. Located in Limoges, the team is constituted by talented engineers and technicians.

NOVAE's team (5 people) will be fully incorporated in LEUKOS – Beaublanc – 2 rue Edouard Michaud – 87000 Limoges.

This strategic acquisition will strengthen LEUKOS position on the Mid-IR supercontinuum lasers and Mid-IR femtosecond lasers. Talents, know-how and skills of both entities will allow LEUKOS to pursue its sustained growth by introducing new innovative products on the market, and reinforce its position as a key player in the laser and photonic industry.

Guillaume HUSS

President
