

Dear Sir

Keopsys (www.keopsys.com) is pleased to announce the acquisition of the assets of 3S Photonics (ex- Manlight ex 3SP Group.), effective on October 7th, 2014.

This entity will serve as a new sister company, managed within **the Keopsys Group**. It will be called **LEA Photonics SAS**. Both companies are located at Lannion – Brittany in France, Photonics Brittany Headquarters, the French Industrial cluster dedicated to Research and Industrial photonics industries. (<http://www.photonics-bretagne.com/en/the-cluster/history-and-background/>)

We are convinced that by combining both companies strengths and talents, it will streamline R&D efforts, optimize fixed costs, and head to a rationalized and optimized product portfolio.

Both companies will continue their customers oriented market service in terms of optical fiber amplifiers and laser solutions and increase their market footprint as a global key player in this fast growing photonics industry.

Marc Le Flohic

Gerard Le Cam

Sebastien Grot

President Keopsys Group

COO Keopsys SA

Operation director LEA photonics

Until LEA photonics is fully operational company that is likely to occur the 1st week of November 2014, please be free to contact for ex Manlight/ 3SP product to :
